Summary

Senior Full Stack and Blockchain Developer with over 8 years of experience in building robust, scalable, and secure web and blockchain applications. Proficient in MERN, MEAN, Laravel, and Python, with a strong understanding of front-end and back-end technologies. Skilled in Solidity and Rust for smart contract development and experienced in integrating blockchain solutions into web applications. Proven ability to lead and collaborate with cross-functional teams to deliver complex projects on time and within budget. Passionate about exploring new technologies and continuously improving skills to drive innovation and create value for clients and stakeholders.
