## Summary

Senior Full Stack Engineer with 9 years of meaningful contributions to teams of varying size and scope. With my results-driven mentality, I transformed my team by seeking, learning, and teaching new, efficient technologies to make aggressive deadlines consistently achievable. Passionate about going the extra mile to ensure the customer is unquestionably satisfied with the product or service provided. With emphasis on scalable and well-documented code, I believe that my responsibility is maintaining and improving User Experience. There's certainly yet more to learn, yet more problems to solve, and yet more to build. And for this, I am very grateful.
